

National Geographic. Around the World in 125 Years

Our trans-continental trip starts in the Americas and Antarctica (Volume 1); we then cross the Atlantic to Europe and Africa (Volume 2); and finally sail the Indian Ocean to Asia and Oceania (Volume 3). From evocative early black-and-white pictures to autochromes, from the golden age of Kodachromes to digital, *National Geographic* invented the aesthetic of the photo essay, while pushing the technical boundaries of the medium. This world class set is a cultural investment to be cherished, shared, and passed down to future generations. Hardcover, 3 vols. in slipcase, 1404 pages.
